

# F18 Recovery Arlington, Oregon

## Client:

NRC Environmental  
Portland, Oregon

## Contract Value:

\$484,500

## Project Timeline:

Started: July 2004  
Completed: August 2004

## Project Highlights:

- Swift mobilization to aid in the recovery and investigation of the accident
- Emergency recovery work with dives from 20-100 feet.
- Team recovered 98% of two planes spread over 4 miles of swiftly flowing river in 15 days.

Advanced American Construction's salvage and diving operations were put into action when asked to recover the wreckage from a crash of two Marine Guard F18 plane crashes in the Columbia River near Arlington.

The AAC team mobilized and recovered 98% of the wreckage within 15 days.
